## GTX SERIES

Rider Scrubbers

24" - 34"

WALK BEHINDS

SWEEPERS

HIGH PERFORMANCE

CONCRETE POLISHING

BEFORE

AFTER

These tough, compact scrubbers offer the productivity of riders with better maneuverability than walk-behinds. With two specialized cleaning systems to choose from, **FACTORY CATS** offer the performance and capacity required to clean your unique application.

The "Disk" machines offer gimbaled brush drive and 50% more scrubbing power than competitive brands. The "Cylindricals" scrub and sweep in a single pass. The scrub deck has curtains and wipers, for unmatched water control. The side shrouds are made of thick steel and remove easily for brush access and adjustments.

Productivity is a function of scrub width, run time and tank capacity, and **FACTORY CATS** top the chart.

1. Larger tanks = Less stopping to refill
2. Wider scrub path = Fewer trips down the aisle
3. High scrub pressure = Less double scrubbing
4. More vacuum = Dry, safe, clean floors
5. Big battery pack = Runs a full shift (7 hours!)

Every manufacturer claims to have equipment that is tough and easy to clean up. **FACTORY CAT GTXs** have "Tip Back Tanks" for unrestricted access.

The operator sits in a spring-suspended, fully adjustable, mid-back chair. The adjustable steering column, headlight, and armrests further enhance operator comfort.

The **FACTORY CATS** have a powerful drive motor, can climb steep ramps, and come standard with heavy duty tires. Features include an automatic parking brake, and reduction of transport speed while scrubbing or reversing.

Our *Central Command II* system includes a LCD readout, on-board diagnostics, and three hour meters, simplifying preventive maintenance intervals.

**FACTORY CATS** use powerful motors, so they typically run at only 75% of their capacity. This leaves power in reserve for times where heavy scrubbing is required, and prolongs motor life.

**FACTORY CATS** are constructed of thick steel, use stainless fasteners and powder painted to prevent corrosion. The tanks have extra-thick walls, brass inserts, and "through tubes" for strength.

We invite you to compare other equipment. Your maintenance staff will notice the difference.

## RETURN ON INVESTMENT

AREA Sq. Ft.	TIME REQUIRED TO CLEAN		
	By Hand	Model GTX 30"	Weekly Savings
10,000	7 hrs	0.5 hrs	\$ 252.00
25,000	17 hrs	1.0 hrs	\$ 636.00
75,000	50 hrs	2.5 hrs	\$1,900.00
100,000	70 hrs	3.5 hrs	\$2,544.00

### SOLD THROUGH DISTRIBUTORS

We've built our reputation by providing the toughest, best-engineered, highest-value machines our industry can produce. We make sure that in every market in which our more than 350 distributors in 40 countries and service centers do business, they maintain a "factory" trained service department with a vested interest in our customers long-term satisfaction.

**Factory Cat** offers a line of cleaning equipment that includes sweepers and scrubbers, in both walk-behind and ride on models. All our models are practical, rugged machines that are sensibly priced. Your local dealer will be happy to assist you with rentals, soap, and floor sealer information. They will gladly provide service on all brands of cleaning equipment.
